Quality & Patient Safety

UF Health

Big Aims

The Big Aims provide the framework to optimize quality at UF Health. We believe that by simultaneously pursuing the Five Big Aims we will improve quality and patient safety for all our patients.

- **Zero Harm**
  Eliminate all preventable harm by becoming a High Reliability Organization (HRO)

- **Reduce Variation**
  Standardize the processes of care through the use of evidence based practices across the continuum.

- **Transform our Culture**
  Continue to transform to a single highly reliable, team-based, accountable and patient-centered culture.

- **Increase value**
  By providing care that is evidence-based, efficient and cost-effective through good resource stewardship.

- **Perfect Patient Experience**
  Provide a perfect patient experience and a patient/family centered culture
